This Post Topic: Obama the Illuminati agent

Bismillahirrahmaanerrahim

My research into the Illuminati and their plans has led me to conclude that Obama is not only the one whom they want to win and become the next president but that unlike Bush who played the role of the "bad guy", Obama is to be seen as a hero in the United States and most of the world.

Obama is to clean up Bush's mess and maybe even accuse Bush of having been a traitor. Their plans are very complicated, but I must add that the Illuminati almost always have two main plans, it's either one or the other.

In brief, the two plans were:

1) Bush and neo-cons would transform the United States into a Nazi style Police State which would seek to take over the world and have full control over the citizens of the

United States and other countries they conquer.

2) A democrat would replace Bush and become extremely popular by stopping these "evil plans" and "making America great and beloved again" and liberalising American laws. (I've known this for a long time, and some time ago it became obvious to me that this was to be done by Obama).

InshaAllah I will explain this in more detail in the future. For now, know that the Illuminati are doing everything they can to make Obama the next president and if they fail (which I dont think they will) they would go along with the other plan of making the US into a police state not unlike the one from George Orwell's 1984.

They would also do so if Obama fails to be a popular enough president and something happens that ruins his reputation or questions his competence.

Well, he lost the election in New Hampshire today, but there are still many more state elections to be had. Not sure I know much about the subject of this illuminati thing though. Is Obama winning supposed to be a good thing?

"a good thing"?? Eh, no.

Obama and Hillary are fake alternatives, but it seems to me that Obama is the one whom they want to win in this election. If he doesn't, the US would almost certainly become a police state very soon.

The Illuminati agenda can only move forwards by a popular liberal president or the "opposite", a ruthless fascist dictatorship.

Sawtul, why don't you just go straight to the source? It's not Zionist, nor Masonic, not Satanic nor Bohemian Grove, it's not Skull & Bones and it's not your beloved Illuminati. It's just a bunch of Old Boys who happen to control the entire world banking system (including, of course, the Fed). Among them, I'm sure there are several Masons, Skull & Boners, Bohemian Grovers and even Rotary Clubbers. There are many who believe they are even 'Shape shifters' and controlled by aliens. Alex Jones and his Prison Planet represent the ultimate conspiracy theorist, he buys into all the rumours and outlandish ideas used to discredit alternative thinkers, but he is just a usefull idiot, throwing you off the scent.

It's not secret, it's in plain view and amazingly, has little or nothing to do with any religion. The Bilderbergers and the Council on Foreign relations, the Trilateral Commission and numerous interlinked 'think tanks' and government policy advisors are (and have been for a very long time) running the show.

Why don't you tell us about the possibility the New Hampshire outcome was rigged? Obama is not the chosen one: Hillary must become the next presidenta and I still think Obama may become her Vice Dick (Cheney). They are both members of the CFR, both have significant past White House occupants as their advisers (Obama has Brzezinski: he of the Grand Chess Game and the man who gave the USSR its 'Vietnam' in Afghanistan) Clinton has hubby (also CFR) and the wonderfull and compassionate Madame "500,000 dead Iraqi children is an acceptable price to pay" Albright. They are not really rivals at all, they both have both feet in exactly the same primordial mud.

Read Daniel Estulin's "The True Story of the Bilderberg Group", listen to this interview: <http://www.informationclearinghouse.info/article19016.htm> and try to imagine that not everybody shares your point of view which declares everything has a Zionist/religious motive. It simply is about economic dominance and social control.

It does not matter who 'wins' the 2008 Presidential 'race'. Nothing significant will change in the world. The rich keep getting richer and the middle class will disappear. Mrs. Clinton is the 'Mother figure' who will shepherd the U.S through the very traumatic phase of losing an independent currency (introduction of the 'Amero') uniting with Mexico and Canada to form the North American Union (losing existing frontiers in the same manner Europe has) which establishes the second of the desired World Trading Zones which shall 'compete' with the European Union and the Asia-Pacific zone. There will be three world currencies, One World Government and universal taxes, one world Army (currently the UN/NATO forces) and an orderly dumbing down of populations, just as we have witnessed in the US,, leading to a pliable/compliant mass of servants who no longer care to question authority.
